

Skid assembly at ERG's workshop

PROJECT DETAILS

Client: Confidential Battery
Technology Manufacturer

Site: Poland

Application:

- >98% efficiency SO₂ scrubbing of 900 mg/Nm³
- Particulate removal >90% efficiency of 15mg/Nm³
- Inlet gas flow 13,500 Nm³/hr

Equipment:

- SS316 gas quench
- SS316 variable throat venturi
- Derakane GRP packed tower scrubber and sump tank (integral insulation) generally to BS EN 13121-3
- Skid-mounted pumps (SS316)
- Instrumentation and LJBs for site connection to DCS

Year delivered: 2022
